## SUPPORT CHALLENGED GROWERS AT AUSTRALIA'S LARGEST PLANT FAIR

*Come together to support Australian nurseries and procure gorgeous plants during a fun-filled weekend at the Collectors' Plant Fair.*

It has been a challenging past few months for growers across the country, but we are thrilled to announce that The Collectors' Plant Fair returns to the Hawkesbury Race Club, Clarendon March 28 & 29 with over 100 specialist nurseries selling their plants direct to the public. Nurseries have recently faced severe droughts and some were affected by the bushfires, but all are safe and getting ready for the fair. They need our support more than ever to keep growing marvellous plants.

Also in need of our aid is Mt Tomah Brigade who has been bravely fighting the fires. Their crew will be back to take care of our plant crèche once again. They have been with us since the beginning and it represents a major fund-raising event for them. We are so grateful for the dedication, professionalism and hard work Mt Tomah RFS brigade do, fighting fires and at the plant fair.

For the 15<sup>th</sup> edition, the event is still growing as we are excited to welcome new stallholders to offer the widest range of plant material in the country. It is definitely the not-to-be-missed weekend for every plant lover in Australia.

100 + stallholders, food trucks, coffee vendors, and guest speakers guarantee a fun weekend for all.
